Bobble Heads

Fully Custom!

We offer a large array of customized figurines that capture the unique aspects of what makes your celebrity so great to begin with. All of our miniatures depending on the item are either made from a quality poly-resin substance or high density plastic. All we need to get started is for you to provide a basic spec sheet that includes: actual height, body type, skin tone, and outfit as well as some photos of the subject and you are ready to go!

Our bobbles are hand painted and sculpted to the most intricate detail. What better way to promote your player than to have a miniature model of them. For an added bonus we can even make them talk or add a metallic look to their paint. Production time is 90-105 days. Due to the costs in creating the initial mold, minimum orders are usually 1,000 pieces but for below minimum orders please still feel free to contact us as well. For a personal quote please submit a form and provide us with as much detail as possible.
